

## Charlotte Property Damage Lawyer

Accidents often cause serious property damage. After a car crash, for example, you may be unable to use your car. You can't get to work or school, can't take care of your family, or simply can't live your life. But insurance companies are unlikely to offer you enough compensation to get your car fixed.

Personal injury attorney [Gregory N. Wilson](#) does more than just help people get compensation for medical bills and pain and suffering. He also helps people deal with property damage and get money to cover all their losses. The Wilson Law Firm, PLLC accepts clients throughout the Charlotte, North Carolina area, including Gastonia, Concord, Matthews, and elsewhere in Mecklenburg County.

In almost all cases, **we do not get paid until you win.**

People often call our offices angry that insurance companies have done nothing to help them with the damage to their property. They have many legitimate questions about repairs, getting a rental car, loss of use, diminished value, and other concerns, yet, it seems like no one is taking them seriously.

Our lawyer and staff work hard to answer clients' questions and represent their interests before insurance companies' interests. Since 1997, we have been providing quick, responsive service to thousands of people while working aggressively to get them the money they need and deserve.

We go the extra mile to help clients. For example, if our client suffered a car accident, we can help them get a rental car. We then can include the rental car costs in any settlement or verdict calculation, along with diminished value, repair costs, and any other consequences of the accident.
